# Typography

## Font CSS Variables

### Heading Sizes (Desktop)

--font-size-display:	36px
--font-size-h1:	32px
--font-size-h2:	26px
--font-size-h3:	22px

--font-size-h4:	18px
--font-size-h5:	18px
--font-size-h6:	16px

### Content Sizes

--font-size-base:	16px
--font-size-s:	14px
--font-size-xs:	12px

### Font Weights

--font-light:	300
--font-regular:	400
--font-semi-bold:	600
--font-bold:	700

## Typography Rules

### Line Height

Line height for all font sizes:  
1.5rem

### Character Spacing

Header Text: 0.2em  
Paragraph Text: 0.4em

### Paragraph Spacing

Header Text: 0.5em  
Body Text: 1.0em

### Justification

Text should never be justified

### Alignment

The majority of text used within the MyVector Platform should be left-aligned.

Long blocks of text should always be left-aligned.

Text within tables: left aligned

Button Text: centered

Right- and center-alignment should be used sparingly, and should never be applied to large blocks of text.

### Hyphens

Hyphens, for word breaks, are allowed, but should be used sparingly. If hyphens are present in a block of text, then it should be

Iconography

Help Icon

		Size	CSS Class(es)	Corresponding CSS
question icon		1em (12px)	.icon .fa .fa-question-circle .fa-1x	<pre>[data-upload] [data-icon] {   background-color: transparent;   color: var(--color-primary);   line-height: 1;   margin-right: var(--space-base);   width: auto; }</pre> <pre>[data-upload].uploaded [data-icon] {   background-color: transparent; }</pre>
question icon (focus visible)		1em (12px)	.icon .fa .fa-question-circle .fa-1x	<i>Focus box styled according to checkbox focus variables</i>

Using help icons

- Use the help icon to provide additional information about a particular item on the page. When a user clicks or taps on a help icon, a popup is triggered displaying relevant information.
- Layout:** Help icons must always be displayed after its corresponding text with 6px of margin on the left.
- Sizing:** Help icons must be implemented using the Font Awesome 5 Pro font, sized at 1em (12px).
- Accessibility:** Help icons must allow a visible focus for users with visual impairments or those using a screen reading software.

Button & Action Menu Icons

		Size	CSS Class(es)	Style variables

# Icons - Character Styles

## Font Awesome 5 Icon Character Styles - Solid

	Style	Size	CSS Classes
	solid	xs	fas fa-file-alt fa-xs
	solid	sm	fas fa-file-alt fa-sm
	solid	(default)	fas fa-file-alt
	solid	lg	fas fa-file-alt fa-lg
	solid	2x	fas fa-file-alt fa-2x
	solid	3x	fas fa-file-alt fa-3x
	solid	5x	fas fa-file-alt fa-5x
	solid	7x	fas fa-file-alt fa-7x
	solid	10x	fas fa-file-alt fa-10x

## Font Awesome 5 Icon Character Styles - Regular

	Style	Size	CSS Classes
	regular	xs	far fa-file-alt fa-xs
	regular	sm	far fa-file-alt fa-sm
	regular	(default)	far fa-file-alt
	regular	lg	far fa-file-alt fa-lg
	regular	2x	far fa-file-alt fa-2x
	regular	3x	far fa-file-alt fa-3x
	regular	5x	far fa-file-alt fa-5x
	regular	7x	far fa-file-alt fa-7x
	regular	10x	far fa-file-alt fa-10x

## Font Awesome 5 Icon Character Styles - Light

	Style	Size	CSS Classes
	light	xs	fal fa-file-alt fa-xs
	light	sm	fal fa-file-alt fa-sm
	light	(default)	fal fa-file-alt
	light	lg	fal fa-file-alt fa-lg
	light	2x	fal fa-file-alt fa-2x
	light	3x	fal fa-file-alt fa-3x
	light	5x	fal fa-file-alt fa-5x
	light	7x	fal fa-file-alt fa-7x
	light	10x	fal fa-file-alt fa-10x

# Shadows (for reference)

## Drop Shadow Sizes

Size		Components associated with this size
xx-small		Button, Alert, Actions Menu (open)
x-small		Card
small		
medium		Floating Action, Pop Up, Modal
large		
x-large		Side Panel, Bottom Panel
xx-large		Top Navigation

## Using Drop Shadow

Each component has its own level on the elevation scale. Buttons start at xx-small, and increase in level once interacted with. The closer the component is to the user, the bigger its shadow.

### Drop Shadow: Responsive Elevation

Pressed	- one level
Hover & Focus	+ one level
Active	+ two levels
Dragged	+ three levels
Disabled	Remove all shadow
Text, Media Element, Link, Tags, Container Alert, Nav Card, Form Pieces	

## Inset Shadow Sizes

Size		Components associated with this size
x-small		Pieces (input radio chekcbox)
small		Scroll Boxes (tables etc)
medium		TBA Larger View/Scroll Areas
large		

## Using Inset Shadow

Input pieces that are interactive use inset shadows to show a user input "goes into them". This can also be applied to components that contain a view of an item, similar to a view-master

### Drop Shadow: Responsive Elevation

Hover & Focus & Active	+ one level
Disabled	Remove all shadow

# Spacer (for reference)

## Spacer Sizes (States)

Size	Vertical	Horizontal
xs		
s		
base		
m		
l		
xl		
xxl		

## Using Spacer

Use this XD component to accurately place space between components and text. The opacity is at 1% so that it is grabbable. You may lower it to 100% if leaving it in your design.
